

IN THE SWIM

Spring 06

What has been happening in pool resurfacing with Epotec?

Ah Spring!!

Longer days, blossom about and green leaves aplenty.....summer is not far away and into the pool we dream.

So how is your pool looking after winter hibernation? It will need a water spruce up and may be a new surface if it's getting old and tired. Was it difficult to keep clean last season? Do you have dark spots in your Marblesheen or crazed and cracked Fibreglass? If there is paint has it almost faded away or does it come off on your feet?

Have a look and see what's needed and don't be tempted to wait if in doubt. Better to deal with it now than have a spoilt summer season with a resurfacing job mid season.

We offer a free information service and if need be can arrange quotes or for the DIY, a complete package, so either way you'll have a fine long lasting finish.

A beaut for Boystown!!

Faced with a hot summer and no pool, Hitchins leapt to action and guided the Boystown staff and dog into the art of DIY to get the job done pronto. The result is a beautiful Mid Blue finish in their 25 M pool. Even the dog was relaxed about the outcome!

Epotec has over 20 years proven usage in swimming pools in Australasia...you can have the same benefits.

A fine Epotec Mid Blue in Sydney, sets off the dark stained timber surrounds beautifully.
 A timber decking is a great way to finish your pool surrounds when doing a renovation. It economically creates a new edge and allows for dealing with uneven surfaces, yet looks great.
 You can use Epotec in Dark Blue as this goes well with any surrounds with a reddish hue to them.

We started with this...

North Queensland in Sydney!
 A recent client was very keen to feel like being on the beach up (far) north when he looked at his pool in Sydney.....and the way to do it was with Epotec Pale Jade.
 Of course we couldn't do much about the Sydney weather.... But how does this look on a good day?

Applied Epotec in Pale Jade....

Here's the result.....Dive in!!

Epotec, the proven Hi Build Epoxy Pool (and spa) coating is available for your pool. Be it Fibreglass, Marblesheen or Concrete, Epotec will give it a new lease of life. A life that's long lasting, economic and attractive. We work with you, be it DIY, your painter or Approved Applicator for a great finish, every time. Warranty available.
