spring 08

**EPOTEC - THE Proven Hi Build Pool Coating**

## Warming up for Summer

Pools BIG or small all need looking after on a regular basis. Leaving them to look after themselves during the winter months is not a good idea. The water not only becomes a breeding ground, but requires lots of expensive chemicals to bring it back to life in the spring time. In addition the “soup” you may have through winter will impact on the pools surface, often shortening its life as well. This may then require more money to rejuvenate the surface.

Even in tough times keeping your pool water healthy year round will save you money. Seek advice from your pool shop to get the best value.

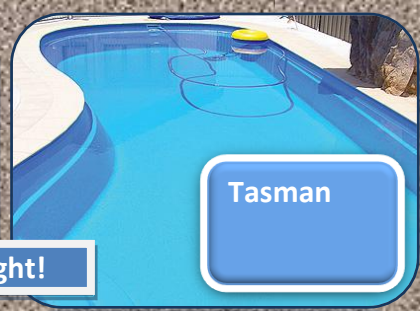

We have been seeing a few pools in poor states of maintenance and hence we want to pass on these \$ saving thoughts.

On a brighter note there are some recent examples of Epotec in action.

*A pool with no water.... from Seton in Marble Bar... the hottest town in Australia and what more can you do with a pet camel?*

**This is what we mean by keeping your pool in good condition during winter... save yourself a big cleanup job come spring**

Tasman

**Hit of Summer 2008 - Tasman delight!**

**Green with envy. A Sydney family were keen to maintain a green look in keeping with their garden and we arranged a special colour for them. Neat ay!!**

**EPOTEC has over 20 years proven usage in swimming pools in Australasia...you can have the same benefits.**

**Bondi goes to Surfers. A stylish DIY result in EPOTEC, in a tranquil canal side location.**

**Bondi**

**EPOTEC, THE Proven Hi Build Epoxy Pool (and Spa) Coating is available for your pool. Be it Fibreglass, Marblesheen, Pebblecrete or Concrete. EPOTEC will give it a new lease of life. A life that's long lasting, economic and attractive. We work with you, DIY, with your painter or an Approved Applicator for a great finish, every time. Warranty available. See our web site for helpful information and more images of EPOTEC in action [www.poolpaint.com.au](http://www.poolpaint.com.au)**
