local contact

Is your pool showing its age? Cracked, dull, worn, faded, chalky, stained, under algae attack and you no longer want to dive in?

Help

It's time to seek the best advice on how to rejuvenate your tired pool (or spa) so you enjoy it once more. We can provide you with well proven answers.

What is your pool made of?

For Fibreglass, Pebblecrete, Marblesheen or Concrete, we can work with them all.

We offer

Quality advice on resurfacing your pool with a proven epoxy coating called EPOTEC.

Performance

EPOTEC is a hi build, long lasting proven coating for pools. It provides a smooth surface, comes in wide range of exciting colours and will save you money and add value to your property. EPOTEC will save hours of cleaning and last season after season.

Satisfaction

Join thousands of other satisfied customers with a rejuvenated pool using EPOTEC which is designed for demanding Australasian conditions.

The Final Finish

With EPOTEC hi build epoxy coating on your pool or spa you can expect a long lasting finish, decorative, easy clean surface in a great colour. It can be applied through Approved Applicators, your favourite painter or even you (Do it Yourself).

Anyway you look at it, EPOTEC is a fine finish.
