

# In The Swim

**EPOTEC**  
THE Proven Pool Coating  
Spring' 17

## Recent DIY projects

We receive many justified questions from potential customers, who consider resurfacing of their old pools by themselves. Swimming pools are not often recoated and there is very limited information available out there for pool owners, to feel confident about such procedures. In reality, the DIY approach to such restoration has become more popular. Repair materials are getting much easier to install

and tools to prepare pools are widely available in hardware shops. All it needs is your time and attention to the details, motivation from your family and our help. EPOTEC has been applied by hundreds of Australians every year. We have lots of great renovation stories about rejuvenated old pools, being upgraded with EPOTEC. Thousands of dollars saved. We have a very long and successful history in Australia and lots of happy Customers.

David and Vivienne painted their waterfront Pebblecrete pool in the Gold Coast with EPOTEC Slater Grey with spectacular result.

Slate Grey

Old fiberglass pool in Gold Coast was rejuvenated for many swimming seasons by owner Clifford. (10/17)

Bondi (Mid Blue)

Before

New life for an old fiberglass lined pool in South Australia. Danny wanted his pool to look more natural and used Pale Jade (12/17)

Pale Jade

Before

Tom from Sydney had old and neglected "hazard". He and his family put a lot of effort into the total restoration of their backyard and now this is a stunning feature and not just a pool. (11/17)

AFTER

Pale Jade

Bondi (Mid Blue)

"I just wanted to let you know I was very impressed with the quality of your pool paint. I have a fair amount of experience using various epoxy finishes, which are not usually what you could term "user friendly." Frankly, I was dreading this job. However, I found your product to be far easier to use than I had expected. It was easy to work, had a good pot life when mixed, and was surprisingly solvent-free. Moreover, it did exactly what the instructions said it would with respect to coverage. We are extremely pleased with the end result; our very tatty, discoloured, 20 year old pool was actually mistaken for a newly-built one by the builder who has just moved in next door (he wanted to know who did it and how much did it cost!). Besides the good looks, we have found it much easier to maintain the pool chemistry and I suspect our chemicals bill is a bit lower now; before we painted, the pH kept going off but now its completely stable. Finally I would like to thank you for your technical support with this job and to say that I would have no hesitation in recommending this product to other pool owners" (Sarah)

Another Sydney Pool has been restored by the owner. No matter big or small, pools look great with EPOTEC!! (11/17) David

Bondi (Mid Blue)

Neville from QLD had a not very old pool lined with quartzon. Applied EPOTEC Dark Blue and enjoyed cool water in the hot tropical weather. (09/17)

Tasman

Rebecca from Sydney had all family involved in this job to be able to have the pool ready for long holidays. This concrete pool had old paint on it. The paint was flaking off, had calcium stains on it and looked very discouraging to start with. Even colour selection was not easy as everyone in her family had a say on it. But in the end the winner was the sparkling new pool for friends and family to enjoy.. (12/17)

Before

Royal Blue

Beautifully tiled features well accommodated with EPOTEC Mid Blue in Sydney (11/17) Ross

Bondi (Mid Blue)

Bondi (Mid Blue)

It is not blue?, but yes it is. Water makes all shades. Kids enjoy it for sure (11/17) Jeremy - Sydney

Lovely cool oasis in Brisbane. (12/17)

Bondi (Mid Blue)
